***Pollinators, including honeybees, monarch butterflies and other native species, are essential to the world's food supply, but their populations are declining at alarming rates. We offer a dynamic selection of native plant seeds to help restore vital habitat for imperiled pollinators.***

**Mesic to Dry Native Pollinator Mix (ERNMX-105)**

A perennial mix suitable for areas ranging from full sun to shade, with variable soil conditions.

**Also available without grasses (ERNMX-125)**

**Partially Shaded Area Roadside Mix (ERNMX-140)**

This mix of native grasses and forbs is ideal for roadside areas and woodland margins.

**Showy Northeast Native Wildflower Mix With Native Grasses (ERNMX-153)**

This mix of native wildflowers and some grasses provides a gorgeous display of color from spring to fall. It is designed for upland sites with well-drained soils and full sun to semi-shaded areas. This mix is ideal for attracting butterflies and hummingbirds.

**Also available without grasses (ERNMX-153-1)**

**Deer Resistant Meadow Mix (ERNMX-155)**

This mix of grasses and forbs features pollinator-friendly species that are typically not favored by deer. While no native mix is deer-proof, this one helps minimize deer browsing.

**Annual Wildflower Mix (ERNMX-167)**

This mix is showy the first year if planted before mid-June. With proper management, this mix will be showy the second year.

**Northeast Perennial & Annual Wildflower Mix (ERNMX-168)**

This mix is showy the second year and beyond, changing color and texture as it matures.

**Southeast Annual & Perennial Wildflower Mix (ERNMX-169)**

A showy mix of native and non-native wildflowers that establishes quickly and has wildlife and pollinator value. This mix has a 2-3 year life span.

**Honeybee Forage Mix (ERNMX-157)**

Treat your bees to a buffet of clovers. Provides a variety of clover species to keep pollinators happy.

**Butterfly & Hummingbird Garden Mix (ERNMX-179)**

This mix was designed specifically to attract hummingbirds and butterflies.

**Rain Garden Mix (ERNMX-180)**

These native perennial forbs and grasses are outstanding choices for use in rain gardens, while providing food and shelter for an array of wildlife, including pollinators.
