Forage & Pasture Sites, Forage & Pasture Sites, Mixes, Solar Sites

The Fuzz & Buzz Premium seed mix was developed to address the unique nutritional needs of sheep, while providing a low-growing, easily maintained and sustainable vegetation solution for solar installations. The plant species chosen with guidance from the American Solar Grazing Association (ASGA). The wildflowers in this mix support pollinators to a greater degree than ERNMX-146 (The Fuzz and Buzz Mix-Standard).
