Biomass; Uplands & Meadows; Wildlife Habitat & Food Plots - Herbaceous Perennial

The Biodiverse Polyculture Mix for Biomass Production is a warm season grass mix for biomass production with legumes to provide nitrogen to the grass. The flowers in this mix support pollinators including monarch butterflies. Mix formulations are subject to change without notice depending upon availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

**Price quotes guaranteed for 30 days.**
